

**Congress of the United States**  
Washington, DC 20515

July 12, 2022

The Honorable Joseph R. Biden, Jr.  
President of the United States  
The White House  
1600 Pennsylvania Ave NW  
Washington, DC 20500

Honorable Xavier Becerra  
Secretary, Department of Health and Human Services  
200 Independence Ave SW  
Washington, DC 20201

Dear President Biden and Secretary Becerra,

We write you to respectfully urge to issue a national emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, known as the “Stafford Act,” and a Public Health Emergency declaration on abortion access pursuant to your authority under section 319 of the Public Health Service Act and the Public Readiness and Emergency Preparedness Act (PREP Act). We further call on you to use your authorities under the PREP Act to help ensure continued access to medication abortion across the country.

The Supreme Court’s radical and dangerous decision in *Dobbs v. Jackson Women’s Health Organization* has precipitated a full-scale reproductive health crisis across our nation. It has also plunged our health system into a state of uncertainty and upheaval that threatens patients’ lives. Abortion bans can unnecessarily impede lifesaving medical procedures in the event of pregnancy complications or loss. Health experts warn that in the aftermath of this disastrous ruling, the U.S. maternal mortality rate — which is already the highest in the developed world — is certain to rise, with disproportionate impacts on communities of color.

The impacts of this ruling are not limited to health systems in states where abortion is now illegal. In making your determination about issuing a Public Health Emergency declaration, we urge you to also consider the spillover effects of state laws banning abortion on the health systems in neighboring states that protect the legal right to abortion. Abortion providers have reported that patients in need of abortion are seeking care in other states, causing unprecedented strain on limited resources and delaying care for residents.

As we have experienced during the COVID-19 pandemic, a public health emergency declaration can provide significant new authority and flexibility for a federal emergency response. Relevant activities may include but are not limited to Public Health Services Corps team deployments,

Medicaid State Plan Amendment flexibilities to support safe-haven states, and the ability to accelerate access to new medications authorized for abortion.

We respectfully urge you to quickly issue a National Emergency and Public Health Emergency declaration and use your authority under the PREP Act to protect abortion access.

Thank you for your attention to this issue.

Sincerely,

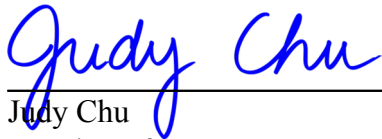

---
