Dear Friend,

The personal toll COVID-19 has taken on the lives of Mainers is beyond measure. We hear about the tragic loss of 185,000 American lives and the millions who are grappling with job loss, eviction, and food insecurity, but these numbers do not tell the full story of this crisis.

I want to hear your story about how this pandemic has affected your health, household, and livelihood so I can better advocate for you.

Please use this space to share you and your family's experiences during the COVID-19 pandemic and resulting recession:

Does my office have your permission to share your story (without using personally identifying information)?

- Yes you may share my story
- Please do not share my story

In May, I voted with my House colleagues to pass The Heroes Act which would extend pandemic unemployment benefits through January 2021, help small businesses recover, provide another round of stimulus checks, support state and local aid, and [much more](#). Unfortunately, the Senate has callously ignored this legislation and let critical programs like eviction moratoriums and unemployment assistance lapse.

Thank you very much for your time. I am proud to represent Maine's 1st Congressional District, particularly at such a critical time for our country and the world.

Best, Chellie
